PATIENT INFORMATION

COVID 19 MANAGEMENT PLAN

Dear Patient

Concept Fertility and Day Hospital would like to advise that we have updated our COVID 19 management plan. A revised FAQ's is now available on our website.

The main changes are:

- Vaccinated and unvaccinated patients can receive treatment at Concept Fertility Centre and Day Hospital
- Screening of patients upon entry has been discontinued
- Visitors are welcome.

As we are a healthcare facility masks remain mandatory inside the building. We do ask you to consider social distancing where able and utilise the hand hygiene dispensers around the building.

As we move to "living with COVID 19" and return to somewhat "normal" life I would like to take the opportunity to thank you for your continued support, consideration and cooperation during what has been a challenging 2 years.

Please feel free to contact us on (08) 9382 2388 if you have any questions or email feedback@conceptfertility.com.au.

Best Wishes

Jen Chambers
General Manager/Director of Nursing
