fertility & day hospital

SEPTEMBER 2023

SUPPLEMENT: Donor Program

12.4.29

This document outlines the costs involved in meeting the legal obligations and clinical requirements that must be undertaken before a recipient is able to utilise a donation of either gametes (sperm/eggs) or embryos for their fertility treatment. It does **not include** the cost of any treatment for the recipient nor any import or export costs that may be involved.

For a full overview of all of the fees involved in undergoing treatment with the use of your donor once all mandatory requirements have been met, **it is essential that this document is read in conjunction with the Concept Fee Schedule.**

	FEE	INCLUDES
UNKNOWN DONOR		
Use of Donor Sperm	\$800	Per Cycle - (IVF/ICSI and Artificial Insemination Cycles Only)
Donor Eggs	\$15,000	Full complement of eggs produced by a donor – number of eggs will vary
Donor Embryos	\$1,000	Per Embryo 4 embryo maximum - per allocation
MANAGEMENT FOR IMPORT OF UNKNOWN DONOR MATERIALS INTO WESTERN AUSTRALIA INCLUDING FROM OVERSEAS		
Management Fee	\$500	The Concept Donor Team will support you to import any overseas gametes (eggs or sperm). This fee will be charged upon receipt of the material into Concept. An application to the Reproductive Technology Council (RTC) may be required under some circumstances. Our Donor team will guide you through this process.

KNOWN DONATION

SPERM

FEE

FURTHER INFORMATION

Program Management

\$500

Payable upon the completion of the recipient's initial individual counselling session

The below are the approximate costs that will be borne by the recipient to meet the clinical, legislative and clinic requirements in order for your donor to be eligible for use:

Donor Semen Analysis and DNA Fragmentation Tests

\$200

Cost is approximate.

Fertility Specialist Consults
Non-Concept Related Fee: Charged by Provider

\$150 - \$350
Per Appointment

Cost is dependant upon the Specialist. A minimum of three appointments will be required. (1x donor, 2x recipient)

Initial Individual and Group Counselling \$570

Counselling is provided at \$190/hr with three hours minimum expected for initial counselling.

Initial Donor Screening

\$855

Cost is approximate. Includes diagnostic, infectious and genetic screening.

Sperm Freezing

\$500
Per Freeze

Number of freezes required will be dependent upon sperm quality. Storage costs as per Fee Schedule.

Final Group Counselling

\$380

Counselling is provided at \$190/hr with approximately two hours expected for final counselling.

Final Donor Screening - 3 Months

\$540

CHOOSE ONE OPTION ONLY
Cost is approximate.

Final Donor Screening - 6 Months

\$125

Final donor screening at 3 months includes PCR testing which allows quarantine to end prior to the clinic mandated 6 month period.

For Example:

A recipient has a known sperm donor whose donation they wish to be able to use for treatment. They are seeing a specialist that has an initial fee of \$350, they request their donor conduct two sperm freezes based on their needs, and are only required to attend the minimum number of counselling appointments. They have requested PCR testing so that the quarantine period is reduced to three months.

Management Fee	\$500	
Semen Analysis and DNA Frag.	\$200	
Specialist Consult (x3)	\$1050	
Initial Counselling	\$570	Approximate Cost = \$5095
Initial Screening	\$855	
Semen Freeze (x2)	\$1000	
Final Counselling	\$380	
Final Screening 3 Months	\$540	

KNOWN DONATION

OOCYTES (EGGS)

FEE

FURTHER INFORMATION

Program Management

\$500

Payable upon the completion of the recipient's initial individual counselling session

The below are the approximate costs that will be borne by the recipient to meet the clinical, legislative and clinic requirements in order for your donor to be eligible for use:

AMH Test

\$70

Cost is approximate.

Fertility Specialist Consults

Non-Concept Related Fee: Charged by Provider

\$150 - \$350
Per Appointment

Cost is dependant upon the Specialist. A minimum of three appointments will be required. (1x donor, 2x recipient)

Initial Individual and Group Counselling \$570

Counselling is provided at \$190/hr with three hours minimum expected for initial counselling.

Initial Donor Screening

\$855

Cost is approximate. Includes diagnostic, infectious and genetic screening.

Final Group Counselling

\$380

Counselling is provided at \$190/hr with approximately two hours expected for final counselling.

Donor Egg Collection

\$5000

Partial fee (\$3700) is Bulk Billed directly to Medicare and includes fertilisation costs

Embryo/Egg Freezing

\$760

Storage costs as per Fee Schedule

Final Donor Screening - 3 Months

\$540

CHOOSE ONE OPTION ONLY
Cost is approximate.

Final Donor Screening - 6 Months

\$125

Final donor screening at 3 months includes PCR testing which allows quarantine to end prior to the clinic mandated 6 month period.

For Example:

A recipient has a known egg donor whose donation they wish to be able to use for treatment. They are seeing a specialist that has an initial fee of \$250, they conduct one egg collection based on their needs, wish to fertilise upon collection, and are only required to attend the minimum number of counselling appointments. They would like to wait the full six month quarantine period to reduce the cost of final screening.

Management Fee	\$500	Approximate Cost = \$7320
AMH Test	\$80	
Specialist Consult (x3)	\$750	
Initial Counselling	\$570	
Initial Screening	\$855	
Egg Collection	\$500	
Embryo Freezing	\$760	
Final Counselling	\$380	
Final Screening 6 Months	\$125	

KNOWN DONATION

EMBRYOS

FEE

FURTHER INFORMATION

Program Management

\$500

Payable upon the completion of the recipient's initial individual counselling session

IMPORTANT: the creation of an embryo requires two people who are **both** considered the donor and they therefore must each meet all requirements for donation. If the contributors to the creation of the embryo(s) being donated are in a relationship together, then the sharing of appointments may be possible. If they are not in a relationship together then there may be a requirement to conduct separate sessions with the counsellor and the specialist, the cost of which will need to be met by the recipient.

The below are the approximate costs that will be borne by the recipient to meet the clinical, legislative and clinic requirements in order for your donor to be eligible for use:

Fertility Specialist Consults
Non-Concept Related Fee: Charged by Provider

\$150 - \$350
Per Appointment

Cost is dependant upon the Specialist. A minimum of three appointments will be required. (1x donor, 2x recipient)

Initial Individual and Group Counselling \$570

Counselling is provided at \$190/hr with three hours minimum expected for initial counselling.

Initial Donor Screening

\$1710

Cost is approximate. Includes diagnostic, infectious and genetic screening for both donors.

Final Group Counselling

\$380

Counselling is provided at \$190/hr with approximately two hours expected for final counselling.

Final Donor Screening - 3 Months

\$1080

CHOOSE ONE OPTION ONLY
Cost is approximate. Final donor screening at 3 months includes PCR testing which allows quarantine to end prior to the clinic mandated 6 month period.

Final Donor Screening - 6 Months

\$500

May not be required based on the length of time in cryopreservation.

For Example:

A recipient has known donors whose embryos they wish to use for their treatment. They are seeing a specialist that has an initial fee of \$150. The donors are in a relationship together and are only required to attend the minimum counselling and specialist appointments. They have had their embryos in cryopreservation for the past four years, so only the initial screening will be required.

Management Fee	\$500	Approximate Cost = \$3610
Specialist Consult (2)	\$450	
Initial Counselling	\$570	
Initial Screening	\$1710	
Final Counselling	\$380
